- Domains of Interest: Full Stack Development, Cloud Computing, Cybersecurity, AI

PROJECTS

Panchayat Mitra (Web Development)	December 2024
- Developed a comprehensive platform offering detailed information on government schemes. - Included eligibility criteria, benefits, application processes, and required documentation. - Provided step-by-step guidance for users to claim benefits. - Offered downloadable forms and links to government portals. - Designed for easy accessibility and navigation for all citizens.	
M-Tickets (Logical Development)	May 2023
Enabled users to browse and select their preferred movies. Provided options for users to choose showtimes and seat preferences. Implemented a booking system that allows users to reserve and purchase tickets. Ensure secure processing of payments and confirmation of bookings. Integrated database management for storing movie details, user information, and booking history.
