SKILLS

- **Languages:** C++, JavaScript, C, PHP
- **Frameworks:** HTML and CSS, Bootstrap, NodeJS, React
- **Tools/Platforms:** MySQL, MongoDB, Figma
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability

INTERNSHIP

Geeks for geeks – Summer Training(DSA)

June 2024 – August 2024

- Completed an intensive two-month summer training program focused on **Data Structures and Algorithms (DSA)**.
- Solved competitive programming problems, optimized algorithms, and participated in coding challenges.
- **Used :** C++, Data Structures, Algorithm Optimization, Competitive Programming Platforms.

PROJECTS

- **AI-Powered Code Reviewer:** February 2025
Built an AI-driven code reviewer to analyze, review, and suggest improvements for code, enhancing development efficiency. Integrated artificial intelligence to provide real-time feedback and optimization suggestions. Designed a responsive front-end using React and Bootstrap for seamless user experience. Developed RESTful APIs in Node.js and Express.js to handle code analysis requests..
Tech Stack: MERN (MongoDB, Express.js, React, Node.js), OpenAI API
- **Weather App:** January 2025
Developed a real-time weather application displaying current weather conditions based on user location. Integrated the API to fetch weather data, including temperature, humidity, and wind speed. Designed a responsive and user-friendly interface using HTML, CSS, and JavaScript. Implemented geolocation features to automatically detect the user's location for accurate weather updates.
Tech Stack: HTML, CSS, JavaScript, OpenWeather API
- **E-Commerce UI/UX Design:** November 2024
Designed a user-centric e-commerce platform with an intuitive and engaging interface. Conducted user research, empathy mapping, and persona creation to understand user needs and improve usability. Created wireframes, prototypes, and high-fidelity designs focusing on accessibility and responsiveness. Designed a seamless product browsing and checkout experience with optimized navigation.
Tool: Figma
- **Food Plaza - Client-Based Project:** February 2024
Developed a fully responsive and dynamic food ordering platform for a client using Angular. Designed an intuitive UI with Bootstrap to enhance user experience across all devices. Implemented a structured component-based architecture in Angular for scalability and maintainability. Integrated real-time menu updates, order tracking, and a smooth checkout process.
Tech Stack: Angular, Bootstrap, HTML, CSS, JavaScript

CERTIFICATES

- Building web application in PHP - Coursera November 2024
- NOC: Cloud Computing – IIT Kharagpur(NPTEL) August 2024
- ChatGpt Advanced Data Analysis – Coursera April 2024
- HTML, CSS and Javascript for Web Developers - Coursera April 2024
- Server side javascript with Node.js – Coursera March 2024
- Programming in C++ - Coursera February 2024

ACHIEVEMENTS

- **Solved 200+ coding problems on various platforms:**
LeetCode, GeeksforGeeks (GFG), Coding Ninjas, etc.
- **Hackathon - Web-A-Thon:**
Successfully cleared the second round of Web-A-Thon.
- **Extra-Curricular Activities:**
Annual Sports Day – Secured 3rd place in during school sports competition.

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering; **CGPA: 6.7** Since August 2022
- **Lyceum International School** Muzaffarpur, Bihar
Intermediate; **Percentage: 75%** April 2020 – March 2022
